SYLLABUS

DATE OF LAST REVIEW: 02/2013

CIP CODE: 12.0401

SEMESTER: Departmental syllabus

COURSE TITLE: Physical Services III

COURSE NUMBER: COSM0107

CREDIT HOURS: 2

INSTRUCTOR: Departmental syllabus

OFFICE LOCATION: Departmental syllabus

OFFICE HOURS: Departmental syllabus

TELEPHONE: Departmental syllabus

EMAIL: KCKCC issued email accounts are the official means for electronically communicating with our students.

PREREQUISITES: Meet requirements for Kansas Board of Cosmetology Apprentice License.

REQUIRED TEXT AND MATERIALS: Please check with the KCKCC bookstore, http://www.kckccbookstore.com/, for the required texts for your particular class.

COURSE DESCRIPTION: This course provides both classroom and clinical instruction in Artificial nail enhancements. The course consists of 15 classroom hours and 35 clinical hours as prescribed by the Kansas Board of Cosmetology.

METHOD OF INSTRUCTION: A variety of instructional methods may be used depending on content area. These include but are not limited to: lecture, multimedia, cooperative/collaborative learning, labs and demonstrations, projects and presentation, speeches, debates, panels, conferencing, performances, and learning experiences outside the classroom. Methodology will be selected to best meet student needs.

COURSE OUTLINE:
I. Artificial nails classroom theory, (15 hours)
   A. Purpose and effects
   B. Equipment, supplies, and implements
   C. Procedures
   D. Related chemistry
   E. Safety precautions
II. Artificial nails clinical instruction, (35 hours)
   A. Purpose and effects
EXPECTED LEARNER OUTCOMES:

A. The student will be able to describe the importance of the consultation phase of an artificial nail service.
B. The student will be able to identify the main purpose of a proper artificial nail preparation.
C. The student will be able to explain the importance of a well-balanced nail.
D. The student will be able to demonstrate the ways an artificial nail can be finished.
E. The student will be able to demonstrate the procedures for artificial nail preparation, nail form application, and balancing and finishing.
F. The student will be able to demonstrate the application and maintenance procedures for nail wraps and acrylic nail systems.

COURSE COMPETENCIES:

Upon successful completion of the course:

The student will be able to describe the importance of the consultation phase of an artificial nail service.
1. The student will be able to describe, create, and prepare a client consultation form including medical history.
2. The student will be able to identify health conditions that would affect the service.
3. The student will be able to describe, create, and prepare a client service record.
4. The student will be able to describe, create, and prepare a home care regimen prescription.

The student will be able to identify the main purpose of a proper artificial nail preparation.
5. The student will be able to identify and select the appropriate equipment, supplies and implements for artificial nail services.
6. The student will be able to define the anagram P.R.E.P.
7. The student will be able to explain the myths associated with artificial nails that are the direct result of improper nail preparation.

The student will be able to explain the importance of a well-balanced nail.
8. The student will be able to explain and demonstrate balanced architecture of an artificial nail.
9. The student will be able to explain and demonstrate the 3 zones of an acrylic nail enhancement.

The student will be able to demonstrate the ways an artificial nail can be finished.
10. The student will be able to identify, describe, and demonstrate the finishing techniques available for artificial nails.
11. The student will be able to describe the advantages and disadvantages of each finishing technique.
12. The student will be able to list the products and implements necessary for finishing artificial nails.

The student will be able to describe the procedures for artificial nail preparation, nail form application, and balancing and finishing.
13. The student will be able to describe the purpose, types and procedures for the application of nail wraps.
14. The student will be able to explain the purpose, types and procedures for the application of acrylic nails.
15. The student will be able to report the importance of proper mix ratio for liquid and powder acrylic nails.
16. The student will be able to describe the difference between traditional, fast set, odor free, and advanced liquid and powder systems.
17. The student will be able to demonstrate the procedures for artificial nail preparation.
18. The student will be able to demonstrate the procedures for nail form application.
19. The student will be able to demonstrate the procedures for balancing and finishing.

The student will be able to demonstrate the application and maintenance procedures for nail wraps and acrylic nail systems.
20. The student will be able to describe and demonstrate the steps for application of nail wraps.
21. The student will be able to describe and demonstrate the steps for maintenance of nail wraps.
22. The student will be able to describe and demonstrate the steps for application of acrylic nails.
23. The student will be able to describe and demonstrate the steps for maintenance of acrylic nails.
24. The student will be able to describe and demonstrate the steps for safe removal of artificial nail enhancements.

ASSESSMENT OF LEARNER OUTCOMES:

Student progress is evaluated by means that include, but are not limited to, exams, written assignments, class participation and attendance.

SPECIAL NOTES:

This syllabus is subject to change at the discretion of the instructor. Material included is intended to provide an outline of the course and rules that the instructor will adhere to in evaluating the student’s progress. However, this syllabus is not intended to be a legal contract. Questions regarding the syllabus are welcome any time.
