REQUIREMENTS OF THE COURSE:

Course content may vary, but will generally include the following:
1. Must be enrolled in the fourth semester of the drafting technology program or have approval of the coordinator of drafting technology.
2. Must be employed for an average of three hours per day or 90 hours per semester.
3. The employment must be for such a position that offers the student experience in several phases of drafting.
4. Students are required to bring in samples of work they are doing on the job to the instructor responsible for the field project course. Verification of samples must be completed by the instructor.

5. A questionnaire must be completed by the employer regarding the student's abilities and habits. This questionnaire, examples of student's work done on the job, and the impressions gained by the instructor during the visit to the industry are used to determine the grade the student is to receive for the course.

ASSESSMENT OF LEARNER OUTCOMES:
Assessment methods may include, but are not limited to, the following: Homework, Assignments, Quizzes, Class Participation, Chapter Tests, and Final Exam. The grading scale and the process for calculating the course grades are to be determined by the individual instructors. This information will be included in each instructor's syllabus.

SPECIAL NOTES:
This syllabus is subject to change at the discretion of the instructor. Material included is intended to provide an outline of the course and rules that the instructor will adhere to in evaluating the student’s progress. However, this syllabus is not intended to be a legal contract. Questions regarding the syllabus are welcome any time.
