PREREQUISITES:
Fundamental Treatment Procedures
Musculoskeletal I, II and III
Neuromuscular Rehabilitation
Pathophysiology for Rehabilitation
Clinical Skills I, II, III and IV

REQUIRED TEXT AND MATERIALS:
Please check the KCKCC bookstore, http://www.kckccbookstore.com/ for the required texts.

COURSE DESCRIPTION:
Clinical Skills V consists of a six (6) week, full time clinical affiliation at an approved health care facility. Students will be provided with the environment to facilitate didactic and clinical skills and further develop skills in physical therapy care/treatment. Supervision during the clinical affiliation will be performed by the clinical instructor assigned to the student by the health care facility. Additionally, the student will complete the clinical module related to continuing education.

METHODS OF INSTRUCTION:
A variety of instructional methods may be used depending on content area. These include but are not limited to: lecture, multimedia, cooperative/collaborative learning, labs and demonstrations, projects and presentations, speeches, debates, and panels, conferencing, performances, and learning experiences outside the classroom. Methodology will be selected to best meet student needs.
COURSE OUTLINE:
I. Off-Campus Clinical Activities

II. Continuing Education
   A. Lifelong Learning of the PTA
   B. PTA Specialization
   C. Role of the PTA in professional activities
   D. Community-service project

EXPECTED LEARNER OUTCOMES:
Upon successful completion of this course, on written and/or practical examination:
   A. The student will perform all tasks as stipulated by the clinical education evaluation tool.
   B. The student will discuss the role of life-long learning in the practice of the PTA.
   C. The student will explain the process of specialization for the PTA.
   D. The student will discuss the role of the PTA in professional activities.

COURSE COMPETENCIES:
The student will perform all tasks as stipulated by the clinical education evaluation tool.
1. The student will perform in a safe manner that minimizes risk to patient, self and others.
2. The student will conduct self in a responsible manner (punctuality, appropriate attire, professional behavior, clinical preparedness).
3. The student will display a professional demeanor in all interactions.
4. The student will adhere to ethical and legal standards.
5. The student will communicate in ways that are congruent with situational needs.
6. The student will produce documentation to support the delivery of physical therapy services.
7. The student will deliver established patient care to reflect for and sensitivity to individual differences.
8. The student will participate in patient status judgments, including discharge planning, within the clinical environment based upon plan of care established by the physical therapist.
9. The student will obtain accurate information by performing selected data collections consistent with the plan of care established by the physical therapist.
10. The student will discuss the need for modifications to the plan of care established by the physical therapist.
11. The student will perform physical therapy interventions in a technically competent manner.
12. The student will adjust interventions within the plan of care, as appropriate.
13. The student will educate others (patients, family, caregivers, staff, students, other health care providers) using relevant and effective teaching methods.
14. The student will participate in activities addressing quality of service delivery.
15. The student will participate in addressing patient needs for services other than physical therapy.
16. The student will manage resources (i.e. time, space, and equipment) to achieve goals of the clinical setting.
17. The student will participate in fiscal management of the physical therapy clinical setting.
18. The student will use physical therapy aides and other support personnel according to legal standards and ethical guidelines.
19. The student will implement a self-directed plan for career development and lifelong learning.
20. The student will assist the physical therapist in addressing primary and secondary prevention needs of individuals and groups.
21. The student will exhibit flexibility in scheduling to accommodate unforeseen conditions or circumstances.
22. The student will utilize free time for additional learning experiences or to improve department productivity.
23. The student will complete all assignments designated in the course.
24. The student will write a reflection paper on a conflict experienced with a colleague or patient.
25. The student will give an in-service presentation to facility staff over a topic agreed upon by the student and clinical instructor.
26. The student will internalize the importance of evidence-based practice in physical therapy practice by incorporating evidence into the development of an in-service presentation.

The student will discuss the role of life-long learning in the practice of the PTA.
27. The student will define life-long learning.
28. The student will discuss the APTA’s stance on life-long learning.
29. The student will differentiate the levels of continuing education for the PTA.
30. The student will outline a personal plan for life-long learning.

The student will explain the process of specialization for the PTA.
31. The student will list the areas in which a PTA may gain specialization.
32. The student will discuss the components required to become specialized as a PTA.
33. The student will discuss the components of the Advanced Proficiency designation awarded by the APTA.

The student will discuss the role of the PTA in professional activities.
34. The student will discuss various professional activities the PTA may perform.
35. The student will discuss the benefits of belonging to the American Physical Therapy Association.
36. The student will describe the different sections of the APTA and the role of each.
37. The student will discuss ways of being active in the APTA and the appropriate state chapter.
38. The student will discuss ways to be an advocate for the physical therapy profession.

The student will explain the importance of service to the profession and complete a self-directed community service project.
39. The student will discuss the ways a PTA may be involved in providing service to the profession.
40. The student will plan, develop and carry-out a community service project.
41. The student will demonstrate the ability to evaluate a project by compiling a written review of the completed community service project.

ASSESSMENT OF LEARNER OUTCOMES:
Assessment methods include, but may not be limited to: written examinations, lab practicals, homework, and observation of professional behavior.

SPECIAL NOTES:
This syllabus is subject to change at the discretion of the instructor. Material included is intended to provide an outline of the course and rules that the instructor will adhere to in evaluating the student’s progress. However, this syllabus is not intended to be a legal contract. Questions regarding the syllabus are welcome any time.
